SUMMARY

Quality and compliance engineer with 2 years of experience at ISRO supporting quality, safety, verification, and compliance of safety-critical aerospace hardware and ground systems. Experienced in interpreting technical requirements and standards, FMECA, root cause analysis, material qualification, verification & validation, and engineering documentation. Skilled in assessing hardware and processes against applicable requirements, identifying risks and non-conformities, and supporting corrective actions and compliant system operation.

EDUCATION

M. Tech in Mechanical/Aerospace Jul 2024 – Aug 2026
Indian Institute of Technology Bombay

B. Tech in Mechanical/Aerospace Jul 2018 – Aug 2022
Indian Institute of Space Science and Technology

EXPERIENCE

Satish Dhawan Space Centre (ISRO), Sriharikota, India Nov 2022 – Jun 2024
Scientist – C

- Evaluated pressure systems and associated hardware for compliance with ASME requirements, including pressure/relief-device requirements and technical documentation.
- Developed process FMECA, ground safety documentation and post flight analysis to identify failure modes, assess risks, define hazard controls and support verification and validation
- Identified manual-operation risks in stage servicing and implemented revised purge and pressurization sequencing through P&ID updates, reducing operator dependence and improving process consistency.
- Qualified high pressure gas systems up to 350 bars across stage integration facilities (VAB, SVAB, PIF); supported stage servicing and ground system readiness across 8 launch campaigns.

SKILLS

Quality	FMECA, FMEA, Root Cause Analysis, 5 Whys, Fishbone, Fault Tree Analysis, Design of Experiments (DoE), Statistical Process Control (SPC), Cp/Cpk
Standards	ASME, SSCMAN 91-710, ISO 9001:2015, ECSS, ATEX/IECEX
Verification	Requirements interpretation, compliance assessment, verification & validation, qualification, technical documentation, safety documentation
Tools	Minitab, Excel, Visio, Python, AutoCAD
Languages	English, Hindi, Gujarati, Marathi

ACHIEVEMENTS

GATE AE 2024: All India Rank 9.

COURSEWORK

Applied Quality Engineering and Management, Industrial Engineering, Probability, Statistics, Optimization Techniques
